

SANTOS GLNG CONTRACT

Employment Expression of Interest

ESS is recruiting for roles for the Santos GLNG contract. Interested applicants should follow the hyperlink in the middle of the page.

Important

During your online application, there is a query asking you why you wish to join Compass Group and there is a free form field/area that you can type your response directly into. Please ensure that you type into this section that you are a current Spotless employee working on the GLNG contract. Priority will be given to those applicants who are currently working within the contract so it is important that you remember to do this to ensure your application is prioritised.

It is also important to note that ALL applicants will be required to attend interviews and other medical and functional assessment processes in order to qualify for a role offer, being a current Spotless GLNG Contract employee is not a guarantee of employment with ESS.
